The Facility

Attached to Clayton High School, the performing arts center can accommodate audiences of up to 748 people. Seventy ETC Source Four color-changing LED lighting fixtures allow a wide variety of looks to be created on our forty-foot by twenty-eight-foot proscenium stage. Fully-equipped male and female dressing rooms, each with their own lavatory, are located off stage-right while an easy access loading dock / staging area is located off stage-left. Our rigging system allows you to tailor the performance space from a large-scale production to an intimate stage with the ability to fly in backdrops from above or as curtains from either side of the stage.

And then there is the sound. Controlled by a Harman Soundcraft digital mixing board, our speaker arrays will deliver crisp highs and midrange vocals through 8 speakers and deep rumbling bass through two 1,000 watt subwoofers.

In addition to the three choir microphones hung over the stage and the assortment of wired microphones that we have available as part of your rental, you will also have access to 2 wireless handheld vocal microphones and 6 wireless bodypacks with your choice of either lavalier or head worn performance elements.

Finally, the Clayton Performing Arts Center is fully capable of handling your presentation needs with a high-lumen HD digital projector that is capable of projecting on to a motorized screen in front of the main curtain or on to our cyclorama at the back of the stage. Your laptop or digital device can be plugged into the VGA or HDMI jacks located at the soundboard or at the stage whichever best suits your event. Four HD displays in our lobby can be customized to display your logo & event information.

Production Management

Anthony Morgan, Facility Manager

Mr. Morgan has been involved with theater tech for over three decades. A former manufacturers' representative in the lighting industry, he has designed stage lighting for area organizations such as Burlington County Footlighters, New Season Theater Ensemble, Haddonfield Plays and Players, and Bridge Players. He has provided technical support for events ranging from rock concerts, comedy cabarets, beauty pageants and dance competitions to plays, musicals, and corporate-style events. Prior to coming to Clayton, he was one of two theater site managers that oversaw all the events at Williamstown High School.
